What We Do

P

Equipping

Through chapter events, our national webinar, leader training, and other events we equip the highest caliber leaders in the workforce through professional, personal, and spiritual development. Polished guest speakers are Christ followers who also serve as top leaders in their fields.

Discipleship

Women of every ethnicity, background and industry in this generation are more forward-thinking than any generation before. But life is still hard, and we all face challenges that we can't overcome alone. Polished provides working women with a place to experience authentic community. While we're together, we talk about how faith isn't just for a dusty corner of an old bookshelf; it's relevant to the situations we face every day in real life.

Evangelism

At every Polished Network gathering, we share the "Big Story of the Bible" which explains how God created something good, we messed it up, Christ came to make it right, and He will return again to redeem all things. Each semester, our trained ambassadors lead women to a saving faith in Jesus Christ.
